Re: West Lake Landfill - OU2
Docket No. VII 94-F-0025

Dear Mr. Kinser:

Pursuant to paragraph 41 of the above-referenced Administrative Order on Consent, Laidlaw is providing notice that it plans to begin installation of wells for Phase I of the groundwater investigation beginning on January 23, 1995. The wells will be installed at the locations described in the plan that we discussed with you while negotiating the Order. These locations have been approved by the Missouri Department of Natural Resources.

Although EPA has not approved Laidlaw's Work Plan at this time, Laidlaw believes it important to begin work as soon as possible. Laidlaw also understands there is some risk that EPA may require the installation of additional wells.

If you have any questions or comments, please do not hesitate to contact either me or Doug Borro.

Sincerely,

Michael D. Hockley
